Kingman High School

Welcome as we prepare for the upcoming academic year! As we embark on this journey together, we are thrilled to introduce the diverse and enriching high school pathways available at our school. Our commitment to providing a well-rounded education is reflected in the array of opportunities designed to cater to every student's interests and aspirations.

Cambridge Pathways:

At Kingman High School, we take pride in offering the esteemed Cambridge Pathways, an internationally recognized program that fosters academic excellence and prepares students for success in higher education. Students in the Cambridge Pathways will engage in a rigorous curriculum that emphasizes critical thinking, problem solving, and a global perspective. This Cambridge experience supports students in their CTE Pathways as well as being ready for the real world. The Cambridge program doors to prestigious universities worldwide and ensures that our graduates are well-equipped for the challenges of a rapidly changing global landscape.

Career and Technical Education (CTE) Pathways:

In addition to academic excellence, we are equally committed to providing practical and hands-on experiences through our Career and Technical Education (CTE) Pathways. These pathways allow students to explore various career options, develop valuable skills, and gain real-world experience in fields such as technology, healthcare, business, and more. Our CTE programs are designed to prepare students for both college and careers, ensuring they have a competitive edge in the job market.

Whether your child is aspiring to pursue higher education through the Cambridge Pathways or seeking a career-focused approach through CTE, we believe in nurturing individual talents and helping each student discover their unique path to success.

Our dedicated faculty and comprehensive support services are here to guide and support students throughout their high school journey. We encourage you to explore the course catalog to learn more about the specific courses, opportunities, and resources available in each pathway.

As partners in your child's education, we look forward to working together to cultivate a love for learning, personal growth, and success in their chosen pathways.

Here's to a fantastic academic year filled with exploration, growth, and achievement!

Customize Your High School Experience

Cross Campus Courses

This KUSD High School Experience is for students interested in taking a class that is offered at another high school campus. Students may only apply for classes that are not available on their home campus. Students are responsible for their own transportation and must get both school and parent permissions. School administration and counselors will review the application, and determine acceptance based upon the following data:

- Available seats in the class
- Student Transcripts
- Student Discipline Record
- Recommendation from administration/counselor at home school

[Cross Campus Course Application](#)

High School Opportunity Pathway (HOP)

This KUSD High School Experience is for students interested in taking 1-3 classes at Mohave College as part of their high school schedule. Students applying for HOP courses must have declared a college or career pathway and meet the following criteria:

- Be on track for graduation with School Counselor approval
- Declare a college or career pathway
- Attendance record is at least 90% present during the school year prior to application year
- KUSD GPA is 2.5 or higher
- Course(s) requested are not offered within Kingman Unified School District
- Proof of completed MCC application
- Provide transportation to and from the course

[HOP Application](#)

Summit Academy

This KUSD High School Experience is for students interested in taking 4 classes at Mohave College in addition to 1 high school course to fulfill their high school graduation requirements. Students will follow the Mohave College academic calendar and course schedule which may include evening courses. Students applying for Summit Academy must meet the following criteria:

- Commit to one of these specific pathways: nursing, sciences, biology, education
- Approval from High School Counselor and on track to graduate from high school
- Completed Mohave College application & enrollment
- ACCUPLACER Reading: 240 or higher
- ACCUPLACER Writing: 240 or higher
- ACCUPLACER Math: 237 or higher in Advanced Algebra Functions
- Attendance from the previous semester: 90% or higher

- GPA: 2.5 or higher
- Provide transportation to and from Mohave College

Kingman High School Cambridge Academy

Cambridge Assessment
International Education

Cambridge International School

Cambridge education strives to develop learners who are:

- **Confident** in working with information and ideas - their own and those of others.
- **Responsible** for themselves, responsive to and respectful of others.
- **Reflective** as learners, developing their ability to learn
- **Innovative** and equipped for new and future challenges.
- **Engaged** intellectually and socially, ready to make a difference.

Kingman High School is excited to offer the Cambridge Academy. In the new, constantly changing, global economy students will need the knowledge and skills that are necessary to navigate the complexities of college and career in today's global society. These include: an appreciation for cultural differences, an ability to understand multiple perspectives, comfort with change, and the capacity for highly critical and analytical thinking. KUSD Cambridge classrooms support students in their journey of achieving the skills necessary to be competitive in the global workforce. Innovative approaches to teaching and learning are hallmarks of the Cambridge Academies at KUSD.

Career and Technical Education

Check out CTE pathways offered through WAVE.

Why Career and Technical Education?

Expand Student Options

- Show how reading, math, and science are used in careers by relating academic subjects to the real world.
- Start college studies while in high school through dual enrollment with a community college .
- Add a new dimension to learning with "hands-on," in addition to "eyes-on" activities—a more effective way of learning

Enhance Success in School

- Career and Technical programs teach the Arizona Academic Standards needed to be successful on the state graduation exam while enhancing students' enjoyment of school.
- Academic Standards may come easier when taught in a Career and Technical program.

Provide College Prep and Career Prep

- Career and Technical education blends rigorous academic content with technical skills in a hands-on setting so students find greater meaning and greater success in their studies.
- Career and Technical programs meet the entrance requirements of four-year colleges and universities while including the skills employers are looking for.

Challenge Students to Think

- Career and Technical students are challenged to apply theoretical knowledge—learned in academic and technical classrooms— to practical problems in laboratories or at worksites.
- This is a basic lifetime skill.

Test Career Interests Before College

- Career and Technical education provides a career focus as insurance for success in post secondary education. Before students invest in college, they can test their interest in areas such as health care, culinary arts, information technology, technical drawing, hospitality, teaching, child care, agriculture, or business—just to mention a few.

Help Pay for College

- Technical skills focus on a specific career area help students obtain better, higher-paying jobs to meet the cost of college education.

Broaden Lifelong Work and Education Options

- Career and Technical programs prepare students for well-paying satisfying careers even in non-traditional fields

Acquire Life Skills That Apply to Any Career

- Personal skills—such as self-confidence, self-awareness, good work habits, practical problem solving, punctuality, reliability, and teamwork—are essential in any career.
- Career and Technical programs instill the desire to learn because every student feels a sense of accomplishment.

What are Career Pathways?

Career paths are clusters of occupations that are combined together because many of the people in them share similar interests, abilities, and talents.

Selecting a career path provides you with an area of

FOCUS along with **FLEXIBILITY** and a **VARIETY** of careers to pursue.

Although people change jobs many times, they seldom change from one pathway to another.

Explore the Six Career Pathways

Arts/ Communications/ Humanities

Occupations in this career pathway are related to the creative, visual, craft and performing arts. These include architecture, graphic, interior and fashion design, writing, film, fine arts, journalism, languages, media, advertising, public relations, and music.

Engineering/ Industrial Systems

Occupations in this career pathway are related to the technology necessary to design, develop, install and maintain electrical, mechanical and structural systems. These include engineering, manufacturing, construction, and related technologies.

Social/ Human Services

Occupations in this career pathway are related to hospitality, personal and customer services, social services, legal services, and protective services. These include education, government, law and law enforcement, leisure and recreation, military, religion, childcare, social services and personal (beauty) services.

Business Systems

Occupations in this career pathway are related to business occupations, administration, management, marketing and sales. These include entrepreneurship, sales, marketing, computer/information systems, finance, accounting, personnel, economics and management.

Health Services

Occupations in this career pathway are related to the diagnosis and treatment of diseases, disorders and injuries, laboratory technology and therapy. These include medical practice, research, laboratory technology, physical, occupational and speech therapies, disease prevention, alternative medicine, and veterinary science.

Natural Resources

Occupations in this career pathway are related to the natural sciences, agriculture and the environment. These include agricultural sciences, earth sciences, environmental sciences, fisheries, forestry, horticulture, and wildlife.

Senior Honors

Cambridge Stole: A Cambridge student must meet the following criteria in order to wear a Cambridge Stole at Commencement. Qualify for the Grand Canyon High School Diploma AND/OR

1. be a senior who completes a full Cambridge course (Ex. AS Econ, AS Global Perspectives, AS Literature, AS Language, AS or A Physics, AS Mathematics, AS General Paper)
2. have 3 or more years in Cambridge (with at least 6 Cambridge classes on transcript)
3. be in good academic standing (No Ds or Fs in Cambridge classes)
4. sit for at least one exam for three years

CTE Program Cords: To earn a CTE Program Cord, students must complete and pass the required number of courses/credits to be a program completer in each CTE program as determined by the Arizona Department of Education.

CTSO Cords/Stoles: Each Career and Technical Student Organization (CTSO) is responsible for outlining the requirements for CTSO cords and stoles within their CTSO bylaws. Each CTSO has different cord and stole requirements that may change annually as these are student led organizations. If a student has questions about CTSO cords, the student should talk to their CTSO advisor. CTSO Cords/Stoles will be awarded at an event planned by the CTSO.

TSA Cord: To earn a TSA Cord, students must be a program completer and successfully pass the Technical Skills Assessment within the prospective program.

WAVE Cord: To earn a WAVE Cord, students must complete a program with WAVE through their central programs or their MCC CTE programs.

AICE—Grand Canyon Diplomas

The Kingman High School Cambridge students have the opportunity to earn various diplomas as described below.

AICE DIPLOMA (Advanced International Certificate of Education - Cambridge)

During the 11th and 12th grades, students may undertake AICE classes. The curriculum is designed to follow on from IGCSE, giving an integrated four-year curriculum. The AICE diploma itself is designed to be a two year program made up with AS/A level courses.

In order to achieve an AICE diploma, students must satisfy the following during 11th and 12th grades:

- Seven Cambridge credits to include one exam from each of the 3 subject groups and AS Global Perspectives
- Advanced subsidiary (AS) Level exams = 1 credit
- Advanced (A) Level exams = 2 credits
- Students who complete 7 ACIE credits can achieve the AICE Diploma

GRAND CANYON HIGH SCHOOL DIPLOMA

A student may qualify for a Grand Canyon Diploma by meeting the following requirements within the Cambridge Academy and passing IGCSE examinations at the levels prescribed the ADE.

- Two credits of English.
- Two credits of Mathematics
- Two credits of Science
- One Credit of American History
- One Credit of World History
- One Credit of Career and Technical Education (or Cambridge Fine Arts)
- One-half credit of Economics

Annual Public Notification of Nondiscrimination

Kingman Unified School District #20 (KUSD #20) does not discriminate on the basis of race, color, national origin, gender, age, or disability in admission to its programs, services, or activities, in access to them, in treatment of individuals, or in any aspect of their operations. The KUSD #20 Career and Technical Education Department does not discriminate in enrollment or access to any of the programs available (Agriculture, Allied Health, Automotive, Business, Carpentry, CIS, Culinary, Engineering/Drafting, Early Childhood Education, Fire Science, Nursing, Law Enforcement, Photography, Tech Theater and Welding). The lack of English language skills shall not be a barrier to admission or participation in the district's activities and programs. KUSD #20 also does not discriminate in its hiring or employment practices.

This notice is provided as required by Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, and the Americans with Disabilities Act of 1990. Questions, complaints, or requests for additional information regarding these laws may be forwarded to the compliance coordinators listed at bottom.

Notificación Pública Annual de No Discriminación (Spanish Version)

Kingman Unified School District #20 (KUSD #20) no discrimina raza, color, nacionalidad, género, edad, o incapacidad de admisión a sus programas, servicios, o actividades, en acceso a ellas, en el tratamiento a individuos, o en ningún aspecto de sus operaciones. El departamento de Educación Técnica y de Carreras de Kingman Unified School District #20 (KUSD #20) no discrimina en su matriculación o en el acceso a cualquier de sus programas disponibles (Agriculture, Allied Health, Automotive, Business, Carpentry, CIS, Culinary, Engineering/Drafting, Early Childhood Education, Fire Science, Nursing, Law Enforcement, Photography, Tech Theater and Welding). La falta de habilidades inglesas para idiomas de hablar no será una barrera a la admisión ni la participación en las actividades del distrito y programas. El Kingman Unified School District #20 (KUSD #20) tampoco discrimina en sus contratos o practicas de empleados.

Esta noticia es provista y requerida por el Título VI del Acto de Derechos Civiles de 1964, Sección 504 del Acto de Rehabilitación de 1973, Título IX de la Enmienda Educativa de 1972, en el Acto de Era de Discriminación de 1975, y el Acto de los Estadounidenses con Habilidades Diferenciadas de 1990. Preguntas, quejas, o para más información con respecto a estas leyes pueden remitir por al coordinador de compliance.

Get Involved and Stay in School!

Kingman High School offers a variety of athletics, activities and student services. A large number of athletic opportunities are offered in the Fall, Winter and Spring seasons for male and female athletes. Stop by the Athletics Office to pick up your physical exam paperwork and AIA guidelines regarding participation.

Clubs, student organizations, and enterprises provide students with another way to get involved in their school. Students can participate in competitive, academic, service based or social clubs. You can even be involved in Student Government.

The Guidance Office offers a range of services to help students through their high school years. Career, academic and personal counseling is available. Peer mediation and support groups are also an option. After school tutoring centers are available for students needing academic support and AZ Merit preparation.

Take advantage of these and other opportunities to make your high school experience fun, rewarding and successful!

Look to the [KHS Website](#) for up to date information.

Ag Welding 1 & 2	1.0 (0.5 Credits Per Semester)	
Agriscience IV A/B	1.0 (0.5 Credits Per Semester)	
Ag Mechanics A/B	1.0 (0.5 Credits Per Semester)	

Program Completer:

- Students must complete Ag Bio and Advanced Ag Bio.
- Students must also complete one of the following: Agriscience, Horticulture, Ag Welding, or Ag Mechanics

All students will choose additional elective credits from the Electives Course page of the course catalog.

- AS/A level courses may be eligible for college credit by examination
- University bound students may not take Personal Finance A & B

Courses

Construction Technology Pathway

Core Subjects

English

ELL 101A/102B: ELL Pre/Basic A/B

This course provides English Learners with Targeted Instruction in English. Instruction is driven by Performance Indicators from the English Language Proficiency Standards. AZELLA test scores are used to place students in this class. Elective credit only
Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9, 10, 11, 12

Available Online

No

ELL 201A/202: ELL Intermediate A/B

This course provides English Learners with Targeted Instruction in English. Instruction is driven by Performance Indicators from the English Language Proficiency Standards. AZELLA test scores are used to place students in this class. Elective credit only
Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9, 10, 11, 12

Available Online

No

ENG 0101/0102: English 1 A/B

The course meets the Arizona state standards for freshmen English, focusing on grammar and the writing of persuasive and expository essays. Students will practice critical thinking skills while exploring a variety of short stories, non-fiction texts, poetry, and KUSD approved novels in which they are taught literary elements and figurative language. (Cambridge IGCSE First Language English substitutes for this requirement).

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9

Available Online

Yes

ENG 0201/0202: English 2 A/B

As directed through the current Arizona Department of Education's state standards, students review the fundamentals of grammar, write a variety of essays and focus on improving their communicative skills using the standard conventions of written English.

Additionally, students become familiar with the common elements of literature while developing career and college ready vocabulary. In this sophomore level class, students will experience district-approved novels, as well as a variety of short stories, non-fiction texts, essays, and poetry selections. (Cambridge IGCSE Literature in English 0427 substitutes for this requirement). Completion of this course with a B or above qualifies a student for English Composition 101

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

10

Available Online

Yes

ENG 0301/0302: English 3 A/B

The current Arizona State Standards are reflected in this level 3 curriculum which provides students the opportunity to explore district-approved novels, short stories, non-fiction text, essays, and poetry. Through critical thinking, evaluation, analysis, and synthesis, students will explore the literary merits of each piece of text. (Cambridge AS or DC English 101/102 substitutes for this requirement).

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11

Available Online

Yes

ENG 0401/0402: English 4 A/B

This course includes a curriculum directed by the current Arizona State Standards with a focus on college and career readiness writing i.e. applications; resumes; essays. Students will also study and analyze various literary and informational text. This course is designed to explore practical applications of English skills that include presentations and a "career path research paper." (English 4 AP, Cambridge AS English Language 8287 or DC English 101/102 substitutes for this requirement).

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

12

Available Online

Yes

ENG 161/162: IGCSE English 1st Lang A/B

This course prepares students to demonstrate understanding of extended texts; recognize the relationship of ideas; draw inferences, evaluate effectiveness, compare, analyze and synthesize ideas; recognize and respond to linguistic devices, such as figurative language; and demonstrate understanding of how writers achieve effects. In writing, students will demonstrate adequate control of syntax, vocabulary and grammar; express thoughts, feelings and opinions in order to interest, inform or convince an audience; and will be assessed on their ability to make accurate and effective use of paragraphs, grammatical structures, sentences, punctuation and spelling. In speaking and listening, students will understand and convey simple and complex information; consciously order and present facts, ideas and opinions for a particular audience; recognize and discuss statements of opinion and attitude, while discerning underlying assumptions and point of view; and speak audibly and intelligibly with appropriate tone, intonation and pace. This course is required for Arizona's Grand Canyon High School Diploma.

ENG 261/262: IGCSE English Lit. A/B

This course will prepare students to enjoy the experience of reading literature; understand and respond to literary texts in different forms and from different periods and cultures; communicate an informed personal response appropriately and effectively; appreciate different ways in which writers achieve their effects; experience literature's contribution to aesthetic, imaginative and intellectual growth; and explore the contribution of literature to an understanding of areas of human concern. Students will demonstrate detailed knowledge of the content of literary texts in the three main forms (drama, poetry, and prose); understand the meanings of literary texts and their contexts, and explore texts beyond surface meanings to show deeper awareness of ideas and attitudes; recognize and appreciate ways in which writers use language, structure, and form to create and shape meanings and effects; and communicate a sensitive and informed personal response to literary texts. This course is required for Arizona's Grand Canyon High School Diploma.

ENG 361/362: AS English 3 A/B

The purpose of this course is to provide students with an understanding of the semantic, structural, and rhetorical resources of the English language as they relate to the principles of effective writing. Students will create critical and informed responses to texts in a range of forms, styles, and contexts while developing the interdependent skills of reading, analysis, and research. Students will demonstrate a knowledge and understanding of English language and its use in a variety of contexts. The course also provides a variety of writing opportunities calling for the use of different styles and tones. Students will write clearly, accurately, creatively, and effectively for different purposes/audiences, using different forms. This course is recommended for students seeking the AICE diploma through Cambridge.

May be dual credit with MCC DC ENG 101/102.

ENG C 363/364: AS General Paper A/B

In the AS General Paper Course, students will consider topics within local and international contexts that appeal to their education and career interests. Students will have the opportunity to gain knowledge and understanding of issues in three broad topic areas: 1) Economic, historical, moral, political and social; 2) Science, including its history, philosophy, ethics, general principles and applications; environmental issues; technology and mathematics; 3) Literature, language, the arts, crafts, and the media. They should be able to draw upon knowledge and understanding gained from studying other subjects. Through the study of these broad topic areas, students develop effective reading and writing skills in English. They work with information, ideas and opinions. They analyze and evaluate opinions and ideas and learn how to build an argument. These skills are all highly transferable and will help students in other subjects they are studying, and equip them for higher education or employment. This course is recommended for the AICE diploma through Cambridge.

Students in this course can earn college credit by taking the exam at the end of the semester.

ENG C 371/372: AS/A Literature in English 9276 A/B

The purpose of this course is to provide students with close study of all required texts. Students will learn to demonstrate the ability to respond to literary texts in the three main forms (Prose, Poetry and Drama) of different types and from different cultures. Students will demonstrate an understanding of the ways in which writers' choices of form, structure and language shape meanings. Students will demonstrate the ability to produce informed, independent opinions and judgments on literary texts as well as the ability to communicate clearly the knowledge, understanding and insight appropriate for literary study through writing and other formats.

ENGCE 365/366: Advanced English Seminar III A/B

ADV English Seminar III: A junior English Course intended to serve as an alternative offering to the traditional offering of English III. The course serves a diverse community of active learners and is dedicated to fusing the traditional academic subjects covered in (English III) with real-world technical applications and problem solving skills. Students will become productive, self-directed learners, engaged in rigorous, relevant work. The course is project-based, and assessment in the course will be centered more on the completion and presentation of projects. Course Deliverables include a Milestone Deadline Checklists, journal entries and additional assignments. All students will study the relevance of literature and writing in today's modern world. In addition, the Cambridge International English Language and Global Perspectives syllabi will be used to support the advanced level of this course.

This course is recommended for the AICE diploma through Cambridge.

Math

MAT 0111/0112: Integrated Math 1 A/B

This is the first course in the three year Integrated Math series. The program focuses on combining Algebra and Geometry concepts in order to help students develop an understanding of how these concepts are implemented in the real world. This class is an introductory level. The concepts students will learn are solving equations, order of operations, graphing and reviewing basic geometric figures and concepts. This counts as the Algebra 1 credit required for graduation.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9, 10

Available Online

Yes

MAT 0211/0212: Integrated Math 2 A/B

This is the second course in the three year Integrated Math series. The program focuses on combining Algebra and Geometry concepts in order to help students develop an understanding of how these concepts are implemented in the real world. This level is about developing and growing topics from year one. Integrated 2 solidifies equations and graphing while introducing trigonometry, transformations and congruent triangles. This counts as the Geometry credit required for graduation.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

10, 11, 12

Available Online

Yes

MAT 0311/0312: Integrated Math 3 A/B

This is the third course in the three year Integrated Math series. The program focuses on combining Algebra and Geometry concepts in order to help students develop an understanding of how these concepts are implemented in the real world. This level is about refining students' understanding and implementations of the mathematical concepts. Integrated 3 focuses on systems of equations, triangle proofs, polynomials and quadratics, while reviewing equations, exponents, graphing, and geometry concepts. This counts as the Algebra 2 credit required for graduation.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

Yes

MAT 0340: Discrete Mathematics with Problem Solving

This class will cover the basic concepts of discrete math which will include: finite graphs, matrices, fair share/ voting methods, and problem solving strategies.

Credits 0.5 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

No

Prerequisites

MAT 0345: Probability & Statistics

This class will cover the basic concepts of probability and statistics which will include graphing, making predictions, designing and testing hypotheses.

Credits 0.5 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

No

Prerequisites

MAT 0351/0352: Pre-Calculus A/B

This course is for students who would need to take significant math in college but aren't quite ready to take college classes now. First semester we will be covering factoring, polynomial functions, and sketching functions using parent graphs. Second semester focuses on trigonometric functions and trigonometric identities. Students considering this course should have passed their other 3 years of Math classes with a C or better, in order to be successful.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

Yes

MAT 0361/0362: Personal Finance A/B

This class is a real life approach to understanding your money. This course uses a lot of projects to help you make sense of the topics in your own way. Personal Finance A covers spending, saving, credit, searching for a job, net pay and making a career portfolio. Personal Finance B includes taxes, insurance, retirement, cars, houses and budgeting.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

Yes

MATC 121: DC Intermediate Algebra

Intermediate Algebra extends and strengthens concepts covered in Beginning Algebra. Functions are introduced and integrated throughout the course where appropriate in the context of the following topics: linear equations, inequalities and graphs; absolute value equations and inequalities; operations on polynomials; rational expressions, equations and inequalities; radical expressions and equations; and quadratic equations, inequalities and graphs. Appropriate college placement score applies.

Credits 0.5 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

No

MATC 142: DC College Mathematics

College Mathematics applies practical knowledge of college-level mathematics to real-life problems. Topics include critical thinking, proportional reasoning, linear and exponential growth and decay, geometry, personal finance, probability, and statistics, with an emphasis on understanding concepts and their applications. College Math is recommended for students majoring in the liberal arts, elementary education, and the social sciences whose major does not require College Algebra or Precalculus.

Credits 0.5 (0.5 Credits Per Semester)

No

Prerequisites

Integrated Math 3 A/B

OR

Cambridge Additional Math A/B

MATC 161/162: IGCSE Math Year 1 A/B

This course prepares students to demonstrate mathematical knowledge as a key life skill, and as a basis for more advanced study. Students will develop a feel for numbers, patterns and relationships, with a strong emphasis on solving problems and presenting and interpreting results. Students also learn how to communicate and reason using mathematical concepts. This course will allow students to develop their mathematical knowledge and oral, written and practical skills; read mathematics, and write and talk about the subject in a variety of ways; apply mathematics in everyday situations and develop an understanding of the part which mathematics plays in the world around them. The course is equivalent to Algebra I credit with supplemental Cambridge material to enrich and expand concepts. This course is required for Arizona's Grand Canyon High School Diploma.

Credits 1.0 (0.5 Credits Per Semester)

MATC 261/262: IGCSE Math Year 2 A/B

This course investigates many of the high school concepts of geometry, logic, and reasoning and continues the theme of Cambridge Year 1. Students also learn how to communicate and reason using mathematical concepts. This course will allow students to develop their mathematical knowledge and oral, written and practical skills; read mathematics, and write and talk about the subject in a variety of ways; apply mathematics in everyday situations and develop an understanding of the part which mathematics plays in the world around them. The course is equivalent to a Geometry credit with supplemental Cambridge material to enrich and expand concepts. This course is required for Arizona's Grand Canyon High School Diploma.

MATC 361/362: Cambridge Addit. Math A/B

Cambridge IGCSE Additional Mathematics (US) allows students to: • further develop their use of mathematical concepts and principles • extend their mathematical skills and their use in more advanced techniques • solve problems, present solutions logically, and interpret results • develop a solid foundation for further study. Our programs balance a thorough knowledge and understanding of a subject and help to develop the skills learners need for their next steps in education or employment. The course is equivalent to an Algebra II credit with supplemental Cambridge material to enrich and expand concepts.

Check out the Cambridge website for more information:
cambridge.org

MATC 371/372: AS Math A/B

The purpose of this course is to enable students to develop an understanding of mathematical principles and an appreciation of mathematics as a logical and coherent subject; acquire a range of mathematical skills, particularly those which will enable them to use applications of mathematics in the context of everyday situations and of other subjects they may be studying; develop the ability to analyze problems logically, recognize when and how a situation may be represented mathematically, identify and interpret relevant factors, and, where necessary, select an appropriate mathematical method to solve the problem; use mathematics as a means of communication with emphasis on the use of clear expression; and acquire the mathematical background necessary for further study in this or related subjects. This course is recommended for the Cambridge AICE diploma.

Science**SCI 0111/0112: Integrated Science A/B**

Integrated Science is the entry level science course for high school science. It provides the conceptual foundation for further high school science curriculum. Students receive instruction and practice in developing and refining scientific skills and methods that are prerequisites for success. Topics included in this class are scientific processes, the nature and history of science, basic earth science, basic physics, and basic chemistry. Students will focus on fundamentals, data recording, and communication in all areas. Instruction and pacing will be differentiated to meet the needs of the students.

Credits 1.0 (0.5 Credits Per Semester)

Social Studies

SSC 0201/0202: World History and Geography A/B

Students will analyze the human experience through time to recognize the relationships of events and people and to interpret significant patterns, themes, ideas, beliefs, and turning points in world history. The first semester covers history up to the age of exploration and colonization and focuses heavily on the development of civilizations that established the foundations for the modern historical era beginning around the 16th century. The second semester covers history from the era of Absolute monarchs in Europe to the present and focuses heavily on political, economic, and social developments that have shaped the world we live in today. There will also be a large focus on geography, especially where it is a significant factor in the shaping of historical events. The content of this course requires an emphasis on reading, writing, and critical thinking skills, which will be developed throughout the semester

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9, 10, 11, 12

Available Online

Yes

SSC 0321/0322: US History A/B

This course is a one year course. The first semester covers early American history from pre-Columbian America through the 1920's. There will be an emphasis on the period from the Industrial Revolution forward. In addition, this course will include Arizona history and basic economic concepts. The second semester covers the period from the Great Depression through current events. This is a required course for graduation (SSCD 371/372 DC US History A/B AS substitutes for this requirement).

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

Yes

SSC 0450: Civics

In this semester long class, students will learn about the history and heritage of the government and Constitution of the United States, the roles of the three branches of federal government, state and local governments, and economics. This is a required course for graduation. May be dual credit with MCC POS 120.

Credits 0.5 (0.5 Credits Per Semester)

Grade Level

12

Available Online

Yes

SSC 0460: Economics

In this semester long course, students will learn an overview of the foundations of economics and will focus on different approaches to the study of economics: microeconomics, macroeconomics, global economics, and personal finance. Current issues and public policies will be analyzed to gain a better understanding of the complex relationships among economics, politics, and culture. Economics is available for sophomores in the Cambridge program.

Credits 0.5 (0.5 Credits Per Semester)

12

Available Online

Yes

SSCC 0480: Cambridge Econ AS

Cambridge International AS Level Economics is an introductory economics course that covers the key concepts which run through the study of economics. These concepts will help students make links between the different levels and topics in economics including fundamental problems all societies face, the decision making process by individuals, firms, and governments, how market equilibrium is achieved, when government intervention and regulation is needed or desired, and how these concepts work together to create efficiency. Course is designed to prepare students for Cambridge exams at the end of the year by reinforcing critical thinking, writing skills, and critical analysis. This course is recommended for the AICE diploma through Cambridge.

cambridge.org

SSCC 161/162: IGCSE World History A/B

The IGCSE History course looks at some of the major international issues of the twentieth century, as well as covering the history of particular regions in more depth. The emphasis is on both historical knowledge and on the skills required for historical research. Students learn about the nature of cause and effect, continuity and change, similarity and difference and find out how to use and understand historical evidence as part of their studies. IGCSE History will stimulate any student already interested in the past, providing a basis for further study, and also encouraging a lifelong interest in the subject. Meets World History graduation requirement. This course is required for students seeking Arizona's Grand Canyon High School Diploma.

SSCC 301/302: Cambridge AS Level Global Persp 9239 A/B

The purpose of this course aims to prepare students for positive engagement with a rapidly changing world, broadening their outlook through the critical analysis of, and reflection on, issues of global significance. This course enables candidates to think critically, to reason in a disciplined way, and to communicate effectively. The course is firmly based on skills rather than specific content. Through the study of global issues, candidates will explore different and sometimes opposing perspectives and will acquire and develop thinking and reasoning skills as well as research and communication skills that will enable students to meet the demands of the twenty-first century and to make a successful transition to study in higher education.

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

11, 12

Available Online

No

Prerequisites

It is recommended that students have attained communication and literacy skills at a level equivalent to IGCSE/GCSE Grade C in English.

Notes

This course is required for the AICE diploma through Cambridge. Check out the Cambridge website for more information: cambridge.org

SSCD 371/372: DC US History A/B AS

This course allows students to develop a coherent understanding of the history of the U.S.A. The curriculum content provides for historical study in breadth from a variety of perspectives. This course gives students the opportunity to: understand key issues, ideas, people, and events that shaped the emergence and development of the U.S.A.; understand connections between them and understand their significance; and be able to develop a clear grasp of chronology and periodization. Teaching and learning will focus on: continuity, development, change over time, causation and consequence, the significance of key turning points, and individual's connections between different topics. This course is recommended for students seeking the AICE diploma through Cambridge. This course is required for Arizona's Grand Canyon High School Diploma.

Education Professions Pathway

EPR 0111/0112: Education Professions I A/B

This is an introductory class designed to expose students to employment and/or post-secondary opportunities in the field of education. The program provides instruction in education career choices, education structure and systems, theories, history, pedagogy, developmental stages, learning styles and instructional methods. The Education Professions I class provides interactive experiences with students at different age levels in a variety of content areas in different educational environments

Credits 1.0 (0.5 Credits Per Semester)

Grade Level

9, 10, 11, 12

Available Online

No

EPR 0211/0212: Education Professions II A/B

This class is designed to give students a deeper experience in the world of becoming a teacher and educator. Students will continue to learn about career choices, education structure and systems, theories, history, pedagogy, developmental stages, learning styles and instructional methods. Students will also have the opportunity to visit classrooms to work with current teachers and K-8 students. Students will work with a variety of age levels one-on-one, in small groups, or whole class. Students will be expected to create and implement multiple lesson plans. Students who successfully complete Education Professions I and Education Profession II will become an Education Professions program completer. Being a program completer shows colleges and future employers that you have gained practical and industry specific skills. Program completion increases employability and job readiness. Students who successfully complete the Education Professions program will have opportunities to take education classes through the community college while still in high school and have the potential to earn an associate in Education by the time they graduate high school. These courses align with MCC's bachelors in education program, creating a pipeline for future teachers.

Students who complete Education Professions 1 & 2 can apply to earn Credit for Prior Learning (CPL) at Mohave College for EDU 205. *NOTE* CPL may not be transferrable to other institutions.

MKT 0230/0231: Business Management 1 A/B

This yearlong class will focus on the basic skills needed for working in a business relative to: Workplace Communication and Skills, General Business and Economics, Business and Workplace Ethics, and Organizational Structure and Leadership, Credit, Building Wealth and Investing, Insurance and Marketing. Integration of computer software such as Microsoft Word, PowerPoint, and Excel will be used in conjunction with extensive utilization of the Internet. Students will be able to complete and solve complex problems and use higher-thinking skills regarding the world of Business. Students will create and work with items such as professional emails, memorandums, business letters, slideshow presentations, and web sites. In addition, students will begin building oral communication skills through class presentations of projects and will be responsible for saving and organizing electronic documents.

Credits 1.0 (0.5 Credits Per Semester)

MKT 0232/0233: Business Management 2 A/B

This yearlong course will focus on Human Resources, Workplace Communication and Skills, Technology and Web Based Management, General Management, and Business Financial Practices. Expanded coursework will include online simulations in Management and a Sports and Entertainment Business.

Training will include basic instruction in computers, operating systems, and functions of word processing, spreadsheets, e-mail, and web browser applications. Students will be prepared to pass the NRF Retail Industry Fundamentals, as well as Customer Service and Sales for their certifications. Overall, this course will allow students to be able to complete and solve complex problems and use higher-thinking skills regarding the world of business. Advanced oral communication skills will be learned through class presentation of projects and public speaking events, i.e., FBLA (Future Business Leaders of America). This is a demanding class with a fast tempo, but if students are willing to put in the effort, success is guaranteed.

MKT 0341/0342: Advanced Store Mgmt. & Marketing A/B

This is an advanced business capstone class where students will utilize previously acquired business program skills and knowledge. Students will participate in the management and daily operation of the Dawg Pound (when in the building). Business activities include purchasing, pricing, promotion, cashiering, sales, inventory control, customer service, management, employee training and accounting. Emphasis will be placed on small business management, entrepreneurship, and philanthropy. Simulations are developed to provide teenage-level students with an in-depth, real-world experience in managing a couple of different businesses.

It is designed to give students the following skills: computer applications, decision making, creating financial statements, technical writing, research, entrepreneurial skills and concepts, owning and running a business and marketing and promotion. Computer and Internet interactive training will benefit students in today's digital world.
